

Roller Star Rolling Shutters & Doors

for lifestyle, protection, beauty & innovation

Roller Star... Known World-Wide for Providing Elegant Protection for Windows & Doors.

Offering European design with American ingenuity, Roller Star USA is one of the nation's leading distributors of premium rolling shutters, doors, awnings, accessories and more. For over 20 years, in over 30 countries, we've been providing high-quality products that combine convenience, beauty and lifestyle.

Roller Star's qualified team of engineers and production technicians continuously strive to develop new and innovative concepts that improve quality and efficiency. Installation is performed by skilled craftsmen with the goal of enhancing the beauty of your home with a seamless appearance. Homeowners and businesses alike are discovering how Roller Star shutters protect their property.

Enjoy complete peace-of-mind knowing that you're protected from intruders and all kinds of weather even – when you're not there. Our authorized dealers

will gladly evaluate your needs and recommend the shutter system that's just right for your lifestyle, protection and budget.

Chances are, you're one of the millions of homeowners who in recent years have been affected by substantial increases in homeowners insurance, particularly wind-

storm protection. Roller Star shutters qualify for certain credits and deductions that could help lower your insurance premiums – especially in hurricane prone areas. In

fact, our shutters can actually pay for themselves with the money you will save over the course of a few years.

At Roller Star, we're committed to providing our customers with not only the best quality products available, but with the best

installation and service. That's why we back all our products with one of the strongest warranties in the industry.

Whether you're enclosing a patio, gazebo or the entire house – there's a Roller Star system that's just right for you.

Rolled Aluminum Foam-Filled Slats

Cut the harsh afternoon sun into a gentle ambient light. Close up your patio or deck when you are away for an extended vacation. When just a little protection is all you need, these roll-formed, polyurethane foam-filled aluminum slats are available in a variety of sizes to meet a variety of needs.

Available in many sizes with excellent rigidity and strength these meticulously manufactured shutter slats are highly adaptable and well suited for many applications and projects. Providing excellent insulation from inclement weather, the damaging effects of UV rays, air-borne dust and dirt, heat and sound, they are often used as exterior window shades, patio enclosures or even as roll-down boat house doors!

- Energy efficient thermal guard.
- All weather protection.
- Excellent for climate control, privacy, noise and sound shielding.
- Available with either automatic or manual operating systems.

Automatic Locking Impact Slats

Roller Star's experienced team of engineers and production technicians have developed what we feel is the highest quality and the strongest rolling shutter product available world-wide.

Incorporating an intermediate locking slat hinging together double-walled, reinforced extruded aluminum slats, two locking points are created in the guide rails at the top and bottom edge of each slat. When fully closed these shutters provide maximum security against intrusion or hurricane forces. In fact, increased resistance and tighter locking takes place when any attempt is made to force the shutters upward.

Our durable 10-step finishing process will give you complete peace-of-mind as well as adding beauty to your home.

RE 1000
RE 1500
RE 3000

- Automatic locking security protection.
- All weather hurricane protection.
- Privacy, noise and sound shield.
